Shopify app delivery

Senior engineer with 4+ years in Python backend development and commerce integrations. Builds LLM-powered customer support, dashboard chatbots, and AI code-review agents. Experience across system design, API integrations, asynchronous services, deployment, and production monitoring.

Experience

BRAND
HUB

Senior AI Engineer
BrandHub

Jul 2026 — Present

- Developing an AI chatbot for the BrandHub dashboard, bringing a conversational interface into the platform.
- Building an AI-powered GitHub pull request review agent to automate code review feedback.

NITRO
COMMERCE

Senior Development Engineer (SDE II)
Nitro Commerce

Apr 2025 — Jul 2026

- Built LLM-powered Shopify customer support with custom tools and backend guardrails for store-specific responses and reduced hallucinations.
- Developed Magento SSO with OTP login, centralized authentication, token-based APIs, and cross-store customer provisioning.
- Implemented async SLA workflows, Slack alerts, service health monitoring, and incident alerts; handled deployment and production support.

Software Engineer
Thoughts2Binary

Nov 2021 — Jan 2025

- Built Quivers integration workflows for orders, shipments, refunds, and cancellations across Shopify, WooCommerce, BigCommerce, and ERP systems.
- Built a production Shopify app from scratch: APIs, authentication, integrations, and deployment.
- Integrated Scheels, Sage, and Lightspeed for inventory and fulfillment; built AWS queue-based services with retry and failure handling.
